Nifty Nests

Graphing

Learn more! Visit penniesfortheplanet.org.

Find out how many nests were found for least terns in three years and for loggerhead turtles in three days on Lea-Hutaff Island. Make a graph for each.

Least tern nests:

- This year there were 15 more nests found than two years ago.
- This year there were 10 fewer nests found than last year.
- This year there were 125 nests found.
- How many were found each year?

Walker Golder/Audubon North Carolina

Loggerhead turtle nests:

- On Friday there were 2 fewer nests found than on Saturday.
- On Saturday there were half as many nests found as on Sunday.
- On Sunday there were 6 nests found.
- How many nests were found in all?

Walker Golder/Audubon North Carolina

Bonus: Why is it important to protect Lea-Hutaff Island now? What could happen if we wait?

A Healthy Habitat

Vocabulary

Choose six terms.

- habitat
- wetlands
- Arctic
- wildlife corridors
- ecosystem
- coastal plain
- migration
- conservation
- ecoregion
- biodiversity
- refuge
- erosion

Write a definition for each.
 Then use a dictionary to check your definition.
 Revise it as needed.
 Write a sentence with each term.
